

## **Addendum to the 2023 Summary of Benefits Inflation Reduction Act Impacts**

In August 2022, new legislation known as the Inflation Reduction Act was passed, in part, to lower the cost of insulin products and vaccines for those with Medicare Part D prescription drug coverage.

### **Important Message About What You Pay for Insulin**

- You won't pay more than \$35 for a one-month supply of each insulin product covered by our plan, no matter what cost-sharing tier it's on.
- If your insulin is on a tier where cost-sharing is lower than \$35, you will pay the lower cost for your insulin.
- If your plan has a Part D deductible, this will apply even if you haven't paid your deductible.

### **Important Message About What You Pay for Vaccines**

- Our plan covers most Part D vaccines at no cost to you.
- If your plan has a Part D deductible, this will apply even if you haven't paid your deductible.

## Additional Benefits

Enjoy these extra benefits included in your plan.

### Cigna Medicare Advantage Incentives

With the Cigna Medicare Advantage incentives program, you can earn money for completing certain health check-ups. After completing your yearly health check-up, you can qualify for additional incentives as determined by your plan and provider. Reward dollars are intended to be used on health and wellness products only.

You can earn up to **\$100**, which is loaded on your Cigna Healthy Today card for completing certain healthy activities.

### Cigna Insulin Savings Program

Cigna offers low-cost, predictable copays on Select Insulins.

For Select Insulins, your copay will be up to **\$35** for a one-month supply when you are in the deductible (if applicable), initial coverage, and coverage gap phases of the Part D benefit. This does not apply once you reach the catastrophic coverage phase. If you receive Extra Help, you do not qualify for this program, and your Low Income Subsidy (LIS) copay level will apply.

# 4 | Prescription Drug Benefits

## Medicare Part D Drugs Initial Coverage

The following charts show the cost-sharing amounts for Part D drugs covered under this plan. After you pay any yearly Part D deductible, you pay the following until your total yearly drug costs reach **\$4,660**. Total yearly drug costs are the total drug costs paid by both you and a Part D plan.

You may get your drugs at preferred or standard network retail pharmacies or preferred mail order pharmacies. Your prescription drug copay will typically be less at a preferred network pharmacy because it has a preferred agreement with your plan.

You can get your prescription from an out-of-network pharmacy, but you may pay more than you would pay at an in-network pharmacy. If you reside in a long-term care facility, you would pay the standard retail cost-sharing at an in-network pharmacy.

Your costs may be different if you qualify for *Extra Help*. Your copay or coinsurance is based on the drug tier for your medication, which you can find in the plan *Comprehensive Prescription Drug List* on our website **CignaMedicare.com**. Or call us, and we will send you a copy of the *Comprehensive Prescription Drug List*.

## Coverage Gap

Most Medicare prescription drug plans have a Coverage Gap (also called the Donut Hole). This means there is a temporary change in what you will pay for your Part D drugs. The Coverage Gap begins after your total yearly prescription drug cost (including what a Part D plan has paid and what you have paid) reaches **\$4,660**. Not everyone will enter the Coverage Gap.

After you enter the Coverage Gap, you pay a maximum of **25%** of the plan's cost for covered brand name drugs and **25%** of the plan's cost for covered generic drugs until your costs total **\$7,400**, which is the end of the Coverage Gap.

This plan offers some additional prescription drug coverage for Tier 1 drugs in the Coverage Gap. See the table that follows to find out how much you will pay.

Tier	Supply	Mail Order Cost-Sharing		Retail Cost-Sharing	
		Preferred	Standard	Preferred	Standard
Tier 1 Preferred Generic Drugs	30-day	\$0	\$9	\$0	\$9
	60-day	\$0	\$18	\$0	\$18
	90-day	\$0	\$18	\$0	\$18

## Cigna Insulin Savings Program

For Select Insulins, your copay will be up to **\$35** for a one-month supply when you are in the deductible (if applicable), initial coverage, and coverage gap phases of the Part D benefit. This does not apply once you reach the catastrophic coverage phase. If you receive *Extra Help*, you do not qualify for this program, and your Low Income Subsidy (LIS) copay level will apply.

## Catastrophic Coverage

You qualify for the Catastrophic Coverage Stage when your out-of-pocket costs have reached the **\$7,400** limit for the calendar year. Once you are in the Catastrophic Coverage Stage, you will stay in this payment stage until the end of the calendar year.

Your share of the cost of covered drugs will be the greater of:

- › Coinsurance of **5%** of the cost of the drug, or
- › **\$4.15** for a generic drug or a drug that is treated like a generic and **\$10.35** for all other drugs.
- › Our plan pays the rest of the cost.
