

Addendum to the 2023 Summary of Benefits Inflation Reduction Act Impacts

In August 2022, new legislation known as the Inflation Reduction Act was passed, in part, to lower the cost of insulin products and vaccines for those with Medicare Part D prescription drug coverage.

Important Message About What You Pay for Insulin

- You won't pay more than \$35 for a one-month supply of each insulin product covered by our plan, no matter what cost-sharing tier it's on.
- If your insulin is on a tier where cost-sharing is lower than \$35, you will pay the lower cost for your insulin.
- If your plan has a Part D deductible, this will apply even if you haven't paid your deductible.

Important Message About What You Pay for Vaccines

- Our plan covers most Part D vaccines at no cost to you.
- If your plan has a Part D deductible, this will apply even if you haven't paid your deductible.
