### 1 | About this Plan

# Which doctors, hospitals, and pharmacies can I use?

Cigna Preferred Medicare (HMO) has a network of doctors, hospitals, and other providers. If you use providers that are not in our network, the plan may not pay for these services.

You must generally use network pharmacies to fill your prescriptions for covered Part D drugs.

You can see our plan's Provider and Pharmacy Directory at our website, CignaMedicare.com.

### What do we cover?

Like all Medicare health plans, we cover everything that Original Medicare covers—and more.

- Our customers get all of the benefits covered by Original Medicare.
- Our customers also get more than what is covered by Original Medicare. Some of the extra benefits are outlined in this Summary of Benefits.

We cover Part D drugs. In addition, we cover Part B drugs such as chemotherapy and some drugs administered by your provider.

- You can see the plan's complete Comprehensive Prescription Drug List which lists the Part D prescriptions drugs along with any restrictions on our website, CignaMedicare.com.
- Or, call us, and we will send you a copy of the plan's Comprehensive Prescription Drug List.

This does not apply once you reach the catastrophic coverage phase. If you receive Extra Help, you do not qualify for this program, and your Low Income Subsidy (LIS) copay level will apply.

## 4 | Prescription Drug Benefits

# Medicare Part D Drugs Initial Coverage

The following charts show the cost-sharing amounts for Part D drugs covered under this plan. After you pay any yearly Part D deductible, you pay the following until your total yearly drug costs reach \$4,660. Total yearly drug costs are the total drug costs paid by both you and a Part D plan.

You may get your drugs at preferred or standard network retail pharmacies or preferred mail order pharmacies. Your prescription drug copay will typically be less at a preferred network pharmacy because it has a preferred agreement with your plan. You can get your prescription from an outof-network pharmacy, but you may pay more than you would pay at an in-network pharmacy. If you reside in a long-term care facility, you would pay the standard retail cost-sharing at an in-network pharmacy.

Your costs may be different if you qualify for *Extra Help*. Your copay or coinsurance is based on the drug tier for your medication, which you can find in the plan *Comprehensive Prescription Drug List* on our website **CignaMedicare.com**. Or call us, and we will send you a copy of the *Comprehensive Prescription Drug List*.

### **Coverage Gap**

Most Medicare prescription drug plans have a Coverage Gap (also called the Donut Hole). This means there is a temporary change in what you will pay for your Part D drugs. The Coverage Gap begins after your total yearly prescription drug cost (including what a Part D plan has paid and what you have paid) reaches **\$4,660**. Not everyone will enter the Coverage Gap.

After you enter the Coverage Gap, you pay a maximum of **25**% of the plan's cost for covered brand name drugs and **25**% of the plan's cost for covered generic drugs until your costs total **\$7,400**, which is the end of the Coverage Gap.

This plan offers some additional prescription drug coverage for Tier 1 drugs in the Coverage Gap. See the table that follows to find out how much you will pay.

### **Catastrophic Coverage**

You qualify for the Catastrophic Coverage Stage when your out-of-pocket costs have reached the \$7,400 limit for the calendar year. Once you are in the Catastrophic Coverage Stage, you will stay in this payment stage until the end of the calendar year.

Your share of the cost of covered drugs will be the greater of:

- Coinsurance of 5% of the cost of the drug, or
- \$4.15 for a generic drug or a drug that is treated like a generic and \$10.35 for all other drugs.
- Our plan pays the rest of the cost.
