## 1 | About This Plan

### Which doctors, hospitals, and pharmacies can I use?

Cigna Preferred Savings Medicare (HMO)

has a network of doctors, hospitals, and other providers. If you use providers that are not in our network, the plan may not pay for these services.

You must generally use network pharmacies to fill your prescriptions for covered Part D drugs.

> You can see our plan's Provider and Pharmacy Directory at our website **CignaMedicare.com**.

### What do we cover?

Like all Medicare health plans, we cover everything Original Medicare covers—and more.

- > Our customers get all the benefits covered by Original Medicare.
- > Our customers also get more than what is covered by Original Medicare. Some of the extra benefits are outlined in this *Summary* of *Benefits*.

We cover Part D drugs. In addition, we cover Part B drugs such as chemotherapy and some drugs administered by your provider.

- > You can see the plan's complete Comprehensive Prescription Drug List, which lists the Part D prescription drugs along with any restrictions on our website, **CignaMedicare.com**.
- > Or call us, and we will send you a copy of the plan's Comprehensive Prescription Drug List.

Cost-sharing may vary depending on the customer's Part D coverage phase. Costs may differ based on pharmacy type or status, for example, preferred/non-preferred, mail order, long-term care (LTC), home infusion, and 30- or 90-day supply.

You may get your drugs at preferred or standard network retail pharmacies or preferred mail order pharmacies. Your prescription drug copay will typically be less at a preferred network pharmacy because it has a preferred agreement with your plan.

You can get your prescription from an out-ofnetwork pharmacy, but you may pay more than you would pay at an in-network pharmacy. If you reside in a long-term care facility, you would pay the standard retail cost-sharing at an in-network pharmacy.

### **Coverage Gap**

Most Medicare prescription drug plans have a Coverage Gap (also called the Donut Hole). This means there is a temporary change in what you will pay for your Part D drugs. The Coverage Gap begins after your total yearly prescription drug costs (including what a Part D plan has paid and what you have paid) reach **\$5,030**. Not everyone will enter the Coverage Gap. After you enter the Coverage Gap, you pay a maximum of **25%** of the plan's cost for covered brand name drugs and covered generic drugs until your costs total **\$8,000**, which is the end of the Coverage Gap.

This plan offers some additional prescription drug coverage for Tier I and Tier 2 drugs in the Coverage Gap. See the table below to find out how much you will pay.

#### **Catastrophic Coverage**

You qualify for the Catastrophic Coverage Stage when your out-of-pocket costs have reached the **\$8,000** limit for the calendar year. Once you are in the Catastrophic Coverage Stage, you will pay **\$0** for all covered Part D drugs through the end of the calendar year.

### What You Pay for Insulin

- > You won't pay more than \$35 for a one-month supply of each insulin product covered by our plan, no matter what cost-sharing tier it's on.
- > If your insulin is on a tier where cost-sharing is lower than **\$35**, you will pay the lower cost for your insulin.
- > If your plan has a Part D deductible, the above will apply even if you haven't paid your deductible.
