Good news for 2025

The Coverage Gap, or "donut hole", has been eliminated and your out-of-pocket maximum cost is lower than ever. That means you're more protected from high drug costs in 2025.

Prescription drug payment stages

Deductible

There is no deductible for drugs in Tier 1 and 2. Your coverage for these drugs starts in the Initial Coverage stage.

There is a \$340 deductible for drugs in Tier 3, 4 and 5. You pay the full cost for your drugs in these tiers until you reach the deductible amount. Then you move to the Initial Coverage stage.

Initial Coverage

In this stage, you'll pay your plan copays or coinsurance. The plan pays the rest. Once you, and others on your behalf, have paid a combined total of \$2,000, which includes the amount you paid towards your deductible, you move to the Catastrophic Coverage stage.

Use network providers and pharmacies

AARP® Medicare Advantage from UHC TX-0009 (HMO-POS) has a network of doctors, hospitals, pharmacies and other providers. For some services you can use providers that are not in our network. This health plan requires you to select a primary care provider (PCP) from the network. Your PCP can handle most routine health care needs and will be responsible to coordinate your care. If you need to see a network specialist or other network provider, you may need to get a referral from your PCP. We encourage you to find out which specialists and hospitals your PCP would recommend for you and would refer you to for care, prior to selecting them as your plan's PCP. If you use pharmacies that are not in our network, the plan may not pay for those drugs, or you may pay more than you pay at a network pharmacy.

You can go to **[AARPMedicarePlans.com](https://www.aarpmedicareplans.com)** to search for a network provider or pharmacy using the online directories. You can also view the plan Drug List (Formulary) to see what drugs are covered and if there are any restrictions.
