Need help with your Medicare Part D drug coverage?

Extra Help is a Medicare program that helps people with limited income and resources pay for some Medicare prescription drug coverage (Part D) costs, such as:

- Monthly plan premium
- Yearly deductible
- Coinsurance
- Copays

To see if you qualify for Extra Help, complete an application online at <https://secure.ssa.gov/i1020/start>. You can also call Social Security toll-free at [1-800-772-1213](tel:1-800-772-1213) (TTY: [1-800-325-0778](tel:1-800-325-0778)).

Comprehensive Formulary (drug list)

We cover the most commonly prescribed Part D drugs. Our formulary guides are easy to read, navigate and provide:

- Tier placement and cost-sharing details
- Insulin and Vaccine coverage under the Inflation Reduction Act
- How to find a network pharmacy
- Resources available to help you with coverage determinations and more

Nationwide network of retail pharmacies

A strong network of pharmacies which includes more than 63,000 network pharmacies to help you get the most savings coast to coast.

Understanding drug payment phases

\$615	Deductible phase The amount you pay before you begin to receive benefits from the plan. You'll pay the discounted cost of the drug.
Up to \$2,100	Initial coverage phase During this phase, you pay a copayment or coinsurance (your share of the cost) for the discounted price of each prescription.
Through the end of the year	Catastrophic coverage phase You pay \$0 for Part D covered drugs during this phase. You'll stay in this phase through the end of the plan year.

Are you looking for more than just prescription drug coverage?

- Instead of paying Part D premiums, have you looked at our \$0 premium Medicare Advantage plans which include prescription coverage? Often times drug coverage within our Medicare Advantage plans can be richer than standalone Part D plans like Choice, even at \$0 premiums. For more information and to find out if there is a \$0 Medicare Advantage plan in your state, visit <https://www.aetna.com/medicare/for-members/view-coverage-benefits.html>
- Have Medicare and Medicaid? We also offer Dual Eligible Special Needs Plans (D-SNPs) in some states with \$0 premium and low or zero dollar cost sharing based on your level of eligibility. They provide Medicare Advantage benefits, prescription drug coverage, plus additional benefits.

Pre-enrollment checklist

Before making an enrollment decision, it is important that you fully understand our benefits and rules. If you have any questions, you can call and speak to a Customer Care representative at [1-833-526-2445](tel:1-833-526-2445) (TTY: [711](tel:1-833-526-2445)), 7 days a week October 1 through March 31, Monday through Friday April 1 through September 30, 8 AM to 8 PM, local time.

Understanding the benefits

- ☐ The *Evidence of Coverage* (EOC) provides a complete list of all coverage and services. It is important to review plan coverage, costs, and benefits before you enroll. Visit [AetnaMedicare.com/plandocuments](https://www.aetna.com/plandocuments) or call [1-833-526-2445](tel:1-833-526-2445) (TTY: [711](tel:1-833-526-2445)) to view a copy of the EOC.
- ☐ Review the *Pharmacy Directory* to make sure the pharmacy you use for any prescription medicine is in the network. If the pharmacy is not listed, you will likely have to select a new pharmacy for your prescriptions.
- ☐ Review the *Formulary* to make sure your drugs are covered.

Understanding important rules

- ☐ In addition to your monthly plan premium, you must continue to pay your Medicare Part B premium. This premium is normally taken out of your Social Security check each month.
- ☐ Benefits, premiums, and/or copayments/coinsurance may change on January 1, 2027.
- ☐ **Effect on Current Coverage.** If you are currently enrolled in a Medicare Advantage plan or a Part D Prescription Drug Plan (PDP), your current coverage will end once your new PDP coverage starts. If you have TRICARE, your coverage may be affected once your new PDP coverage starts. Please contact TRICARE for more information. If you have a Medigap plan, you may want to keep your Medigap policy because your Medigap can continue to provide medical coverage.

If you want to know more about the coverage and costs of Original Medicare, look in your current “Medicare & You” handbook.
