Use network providers and pharmacies

UHC Dual Complete WA-S6 (HMO-POS D-SNP) has a network of doctors, hospitals, pharmacies and other providers. For routine dental services, you can use providers that are not in our network.

This health plan requires you to select a primary care provider (PCP) from the network. Your PCP can handle most routine health care needs and will be responsible to coordinate your care. If you need to see a network specialist or other network provider, you may need to get a referral from your PCP. We encourage you to find out which specialists and hospitals your PCP would recommend for you and would refer you to for care, prior to selecting them as your plan's PCP. If you use pharmacies that are not in our network, the plan may not pay for those drugs, or you may pay more than you pay at a network pharmacy.

You can go to **UHC.com/CommunityPlan** to search for a network provider or pharmacy using the online directories. You can also view the plan Drug List (Formulary) to see what drugs are covered and if there are any restrictions.
