## AARP® Medicare Rx Preferred from UHC (PDP)

### Premium, deductible and limits

|                                     |                                               |
|-------------------------------------|-----------------------------------------------|
| Monthly plan premium                | \$145.10                                      |
| Annual Prescription Drug Deductible | \$615 per year for Part D prescription drugs. |

### What is coinsurance?

Coinsurance is a portion or part of the total cost, typically as a percentage. For example, if your coinsurance is 25% and the total cost of your prescription is \$100, you would pay \$25. The plan pays the rest. You pay the full cost of your drugs until you meet the deductible, then you'll start paying the coinsurance amount.

### Prescription drug payment stages

|                  |                                                                                                                                                                                                                                                                         |
|------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Deductible       | Your plan has a \$615 prescription drug deductible. You pay the full cost for your drugs until you reach the deductible amount. Then you move to the Initial Coverage stage.                                                                                            |
| Initial Coverage | In this stage, you'll pay your plan copays or coinsurance. The plan pays the rest. Once you, and others on your behalf, have paid a combined total of \$2,100, which includes the amount you paid towards your deductible, you move to the Catastrophic Coverage stage. |

## Prescription drug payment stages

### Catastrophic Coverage

Once you're in this stage, you won't pay anything for your Medicare-covered Part D drugs for the rest of the plan year.

<sup>^</sup>Members living in long-term care facilities pay the same for a 31-day supply as a 30-day supply at a retail pharmacy.

<sup>1</sup> You pay no more than 25% of the total drug cost or a \$35 copay, whichever is lower, for each 1-month supply of Part D covered insulin drugs, even if you haven't paid your deductible, until you reach the Catastrophic Coverage stage where you pay \$0.
